I did read yours and had intended to include you on the list for a large group reply to the barrage this morning. There's nothing on the agenda and the amount of misinformation and speculation circulated by both sides has created a huge distraction. back to the business at hand -- our agenda for Monday is quite full.

Jan…I know you have been barraged with messages about the HP issue but I hope you got a chance to read mine. Hopefully you are on the same page and if you would like to discuss it, I'd be
glad to anytime. Keep up the good work! Best, Pam Winters ps…glad the Council and Mayor decided to dump the boycott resolution.

The City Council has been barraged with messages concerning this issue, and given the great volume of email received over the past week I cannot reply individually. The agenda for the April 23 Cambridge City Council meeting (LINK) does **not** include a policy resolution suggesting a boycott of Hewlett Packard products, nor is there anything on the agenda related to Israel or Palestine.

Please be advised that the City Council's rules only allow members of the public to speak to items that are on the agenda. Signs, placards and posters are not allowed inside the Sullivan Chamber at City Hall. These rules are strictly enforced, and we ask that all respect them to allow us to conduct the business at hand.

This Monday we have a very full agenda, which includes the city manager's first presentation on the City's FY19 Budget and a petition for a zoning amendment for an expanded Flood Plain Overlay District to better protect the health and safety of buildings and people from the anticipated threats of climate change. If you would like to speak on any item that is on the agenda you may sign up online here; you will have up to three minutes. The public comment period is at the beginning of the meeting, which starts at 5:30pm.

Jan Devereux
Vice Mayor
